

PATRICIA RIVERA

UI/UX designer

SOFTWARE

- Figma
- FigJam
- Miro
- ChatGPT
- Claude
- Cursor
- Jira

PRODUCT DESIGN & UI

Information Architecture	Accessibility Prototyping
Wireframing	User Testing
Design Systems	UX Heuristics
Atomic Design	Technical Handoff
Design Tokens	

UX RESEARCH

User Research	Scrum/Kanban
Research Plans	Design Sprint
User Interviews & Surveys	User Personas
	Journey Maps
Benchmarking	Affinity Diagrams
Design Thinking	BMC / VPC

SOFTSKILLS

Assertive communication	Emphatic
Teamwork	Mentoring
Problem-solving	Creativity
Willingness to learn	

EDUCATION

UX/UI Product Design
Neoland Bootcamp - Madrid | 2026

System Engineering
Universidad de Oriente — Venezuela
| 2010–2016

LANGUAGE

English - B2
Spanish - Native

ABOUT ME

Versatile UX/UI Designer with expertise in creating innovative design systems and reusable components. Committed to translating user requirements into accessible, user-centered interfaces that enhance navigation and optimize workflows across diverse digital platforms

Portfolio: riverapatriciam.com/

PROFESSIONAL EXPERIENCE

WEB UI DEVELOPER / UX COLLABORATION

Globant | Spain | Aug 2023 – May 2026

- Collaborated with UX/UI teams to develop scalable, reusable user interfaces that enhance user experience
- Developed reusable frontend components using React and Web Components
- Contributed to design system creation using tokens and reusable components, streamlining design process across products
- Improved interface consistency and usability across digital products
- Translated user and business requirements into accessible experiences, ensuring alignment with user needs and accessibility standards

FRONTEND DEVELOPER / UX RESPONSIBILITIES

Venped | Spain | Jun 2022 – Aug 2023

- Developed user-centered interfaces that streamlined navigation and optimized workflows
- Collaborated on UX decisions, leading to significant enhancements in interface functionality
- Redesigned company's application with a focus on usability, enhancing overall user experience
- Developed multilingual interfaces to enhance user accessibility across various platforms.

HR ANALYST | LEAD HR OPERATIONS

Leniolabs LLC | Chile | May 2018 – Dec 2021

- Collaborated with employees, clients, vendors, and internal stakeholders to identify needs and implement tailored solutions.
- Managed competing priorities and workflows to ensure timely project delivery in a fast-paced, cross-functional environment.
- Developed strong communication, active listening, stakeholder management, and problem-solving skills.
- Mentored and onboarded a new team member, enhancing team knowledge and promoting a collaborative work culture.

FRONTEND DEVELOPER

ESVENCA | Venezuela | Dec 2015 – May 2018

- Developed user-friendly interfaces and visual dashboards that enhanced operational systems
- Collaborated with stakeholders to refine user interaction and optimize data visualization
- Developed responsive web applications using HTML, CSS, and JavaScript frameworks.
- Collaborated with designers to create user-friendly interface designs and layouts.

UX/UI PROJECTS

LEVEL UP HABITS – riverapatriciam.com/case-study/level-up-habits

- Conducted user research using interviews and surveys
- Created personas, empathy maps, and user journeys
- Designed low and high-fidelity wireframes in Figma
- Developed interactive prototypes and usability tests
- Iterated solutions based on user feedback

AFTER STORY – riverapatriciam.com/case-study/after-story

- Applied information architecture and UX methodology
- Designed responsive interfaces following accessibility principles
- Built scalable design components and user flows

COVE – riverapatriciam.com/case-study/cove

- Collaborated in agile team workflows
- Participated in ideation, prioritization, and design sprints
- Coordinated testing and design validation activities
