ABOUT ME

UX/UI Designer and Product Designer with a background in Frontend Development and hands-on experience collaborating with UX/UI teams. Focused on UI design, Design Systems, accessibility and creating scalable, user-centered digital experiences. Strong understanding of the connection between design and development, with experience translating user and business requirements into reusable, accessible interfaces.

Portfolio: riverapatriciam.com/

PROFESSIONAL EXPERIENCE

2026 – 2023

WEB UI DEVELOPER / UX COLLABORATION

Globant | Spain | Aug 2023 – May 2026

- Contributed to a Design System comprising approximately 10–30 reusable components, using design tokens and Web Components.
- Collaborated with UX/UI designers and developers across 4+ digital product projects to deliver consistent, reusable interfaces.
- Translated user and business requirements into accessible interfaces aligned with design specifications.
- Improved UI consistency and maintainability through reusable components and collaboration with cross-functional teams.

2023 – 2022

FRONTEND DEVELOPER / UX RESPONSIBILITIES

Venped | Spain | Jun 2022 – Aug 2023

- Led the redesign and frontend implementation of a marketplace management application, covering approximately 10–20 screens and user flows.
- Improved application usability and navigation by redesigning interfaces and optimizing user workflows.
- Designed and developed responsive, multilingual interfaces using React and Tailwind CSS.
- Collaborated on UX decisions to align interface functionality with user and business needs.

2021 – 2018

HR ANALYST | LEAD HR OPERATIONS

Leniolabs LLC (Now Improving) | Chile | May 2018 – Dec 2021

- Collaborated with employees, clients, vendors, and internal stakeholders to understand needs and coordinate solutions.
- Managed multiple priorities and administrative workflows in a cross-functional environment.
- Developed strong communication, active listening, stakeholder management, and problem-solving skills.
- Mentored and onboarded a new team member, supporting knowledge sharing and team collaboration.

2018 – 2015

DATABASE ANALYST & FRONTEND DEVELOPER

ESVENCA | Venezuela | Dec 2015 – May 2018

- Developed responsive web interfaces and visual dashboards for operational systems.
- Collaborated with stakeholders and designers to refine interfaces, improve usability, and optimize data visualization.
- Implemented web applications using HTML, CSS, and JavaScript frameworks.

UX/UI PROJECTS

2026

LEVEL UP HABITS - riverapatriciam.com/case-study/level-up-habits

- Conducted 4 user interviews and collected 76 survey responses to explore user needs and challenges.
- Created personas, empathy maps, and user journeys to identify user needs.
- Designed low- and high-fidelity wireframes and interactive prototypes in Figma.

2026

AFTER STORY - riverapatriciam.com/case-study/after-story

- Conducted 4 user interviews to identify user needs and inform design decisions.
- Designed responsive interfaces, user flows, and interactive prototypes in Figma.
- Created reusable design components following accessibility principles.
- Conducted 2 usability testing and iterated designs based on user feedback.

2026

COVE - riverapatriciam.com/case-study/cove

- Collaborated in agile team workflows
- UI Designer, Design System & Prototype Lead.
- Coordinated testing and design validation activities
